

*Biolifting
for your skin*
Helping from
the inside out

**HYALURONIC ACID +
MSM CAPSULES**

We bring out your skin's beauty.

A powerful formula for strengthening and regenerating your skin

Hyaluronic acid for more moisture
MSM for an improved complexion

Hyaluronic acid is a substance that occurs naturally in our bodies and has a high capacity for holding moisture and storing it for longer in your skin.

This serves to gently plump up your skin from the inside. It should therefore be an essential part of your skincare routine.

MSM is an organic sulphur compound that supplies the human body with sulphur – a naturally-occurring vital element.

Taken as a dietary supplement, sulphur has very positive effects on cartilage production and skin complexion.

Only available at our Institute.

- Improved skin and tissue elasticity
- Firmer facial contours
- Cartilage regeneration
- Wrinkle depth reduction
- No colours or fragrances
- No preservatives

Tel. +49 (0)89 21 66 56 60.

We look forward to hearing from you.
